

## Capacity Building in Higher Education (CBHE)

## **General CBHE Infoday**

## 5 December 2024

EACEA, A4 - International Capacity Building

European Education and Culture Executive Agency

## **Technical arrangements**

- The session is being recorded.
- The presentations and recording will be made available after the session on our <u>website</u>.
- For the Q&A sessions, please submit your questions in <u>Slido</u> (#CBHE2025).
- We remain available after the event:
  - EACEA-EPLUS-CBHE@ec.europa.eu

## CBH2025 Info session | Questions?

# Join at slido.com

## How to build a competitive proposal

## Award criteria

### **CBHE2025** Call for Proposals

## CBHE | Award criteria & evaluation

20%

3. Quality of the partnership and

cooperation

arrangements

20%

4. Sustainability,

impact and

dissemination of

the expected results

**30%** 1. Relevance of the project

30%

2. Quality of the project design and implementation

#### **Step 1: Ranking of proposals**

- At least the threshold of **60% of the total score** (i.e aggregate score of the 4 award criteria).
- At least the threshold of **50% of each criterion**.

Proposals will be ranked in descending order by Region and by Strand.

#### Step 2: Consultation of the EU Delegation(s)

 Only projects that have passed successfully the consultation of the EU Delegation(s) will be maintained for an EU funding, within the limits of the available budget per region.

## Award criteria

## **AC1: Relevance of the project**

#### Purpose

- Contributes to broader EU policy objectives, in particular the Global Gateway strategy
- Addresses pre-defined regional priorities for the target Region(s) and is relevant to the objectives and activities of CBHE and specificities of the Strand
- Adequate response to current needs of the target country(ies) or Region(s) and of the target groups & considers the needs of participants with fewer opportunities

#### **EU Values**

• Relevant for the respect and promotion of shared EU values, such as respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, as well as fighting any sort of discrimination

#### **Objectives**

- Based on a sound needs analysis; clearly defined, specific, measurable, achievable, realistic
- They address issues relevant to the participating organisations and development strategies for higher education in the eligible third countries not associated to the Programme

#### EU added value

• The proposal demonstrates that similar results could not be achieved without the cooperation of HEIs from the EU Member States or third countries associated to the Programme and without the EU funding

#### In particular for Strand 2

• Responds to priority areas for socio-economic growth and autonomy in the given region and focuses on innovative elements and state-of-the-art methods and techniques in the identified area of intervention

#### In particular for Strand 3

• Addresses the reform and modernisation of the higher education system(s) in line with the development strategies of the targeted third countries not associated to the Programme

• Important: Regions 5a, 6, 7a, 8a, 9, 10 and 11: non-alignment with the Erasmus+ GG-related investments priorities means that the proposal will fail to fulfil the minimum score under the Relevance criterion.

## Relevance | Where to address this?

O Chapters 1.1; 1.2; 1.3 of the Technical Description (PART B) (<u>Standard</u>)

application form (ERASMUS LSII)

- **1. RELEVANCE**
- **1.1 Background and general objectives**
- **1.2 Needs analysis and specific objectives**
- **1.3 Complementarity with other actions and innovation European added value**

## Relevance | Guiding questions

- Is your project idea creating genuine opportunities for and with target groups in third countries not associated to the programme?
- Are the specificities of each Strand /of each Region demonstrated? Is the needs analysis sound and pertinent?
- Are objectives clear and pertinent to the topic? Are they measurable and verifiable? Are they realistically achievable?
- Are people with fewer opportunities involved?
- Is the proposal innovative or complementary to other actions already implemented by the participating institutions (Strand 2)?
- Are EU values referenced, integrated into objectives, methodology, actions and/or expected outcomes? Practical application, active promotion – Demonstrable & concrete output.

• Do you understand the key features of the call, its policy context and what has been funded previously? Is your idea truly relevant to the call? Why is it worth EU funding?

## Needs ANALYSIS, not Needs Description

This is not a project activity! Already completed:

- forms part of the application
- forms the foundation of the project

#### **Critical engagement with the data:**

- Why are there gaps in the data?
- What has been done thus far/is being done to address these problems?
- Has 'X' policy worked?
- Why do these problems persist?
- What should be performed?

## Award criteria

#### AC2: Quality of the project design and implementation

#### Coherence

- Consistency between project objectives, methodology, activities and the budget proposed
- Coherent and comprehensive set of appropriate activities to meet the identified needs and the expected results

#### Methodology

- The logic of the intervention is of good quality, planned outputs and outcomes are coherent and feasible, and key assumptions and risks have been clearly identified
- The structure and content of the proposal is adequate, i.e. the choice of objectively verifiable indicators, data availability, baseline data, target values, etc.

#### Work plan

- Quality and effectiveness of the work plan are in line with their objectives and the deliverables
- The relation between the resources and the expected results is adequate and the work plan is realistic, with welldefined activities, time-lines, clear deliverables and milestones

#### **Budget**

• Cost efficiency and appropriate financial resources for a successful implementation of the project

#### **Quality control**

 Control measures (continuous quality evaluation, peer reviews, benchmarking activities, mitigating actions etc.) and quality indicators ensure a project implementation of high quality

#### **Environmental sustainability**

• The project is designed in an eco-friendly way and incorporates green practices in different project phases

# Quality of the project design & implementation | Where to address this?

O Chapters 2.1.1; 2.1.2; 2.1.3; 2.1.4; 2.1.5 & Chapter 4 of the Technical Description (PART B)

(Standard application form (ERASMUS LSII) & Detailed budget table (ERASMUS LSII) (mandatory annex)

### 2. QUALITY

#### 2.1 PROJECT DESIGN AND IMPLEMENTATION

- 2.1.1 Concept and methodology
- 2.1.2 Project management, quality assurance and monitoring and evaluation strategy
- 2.1.3 Project teams, staff and experts
- 2.1.4 Cost effectiveness and financial management
- 2.1.5 Risk management

#### 4. WORK PLAN, WORK PACKAGES, ACTIVITIES, RESOURCES AND TIMING

4.1 Work plan

### 4.2 Work packages, activities, resources and timing

## Project design & implementation | Guiding questions

- Are activities consistent with the objectives?
- Are capacity-building activities clearly defined?
- Is the work plan of good quality and effective? Does it include appropriate phases? Does it include quantified information so that progress can be monitored? Does it match the needs identified? Does it follow a logic structure (for example regarding the timing of work packages)?
- Are the curriculum & learning methods of good quality?
- Is the budget cost-effective?
- Are the resources allocated to the work packages in line with their objectives and deliverables?
- Is the recognition and validation of participants' learning outcomes foreseen?
- Are critical risks, relating to project implementation, identified? Are identified risks the most relevant? Are mitigating actions credible?

## Methodology

 the methodology for addressing the needs identified

 consistency between project objectives and activities proposed

## Links to needs analysis, objectives and activities

• Clarify your methodology for the different project activities in view of demonstrating it is appropriate to the objectives and feasible:

- Which target groups will be involved
- How the teacher training will be implemented (face-to-face, hybrid, T-o-T)
- How and when the students will be involved (will you use surveys, benchmarking, self-assessments, focus groups?)
- Explain why the chosen methodology would be the most appropriate for your planned goals

• Illustrate how it supports the capacity building process and the third country's ownership of results

## Work packages: the building blocks of a proposal

- Applicants divide their projects in Work Packages (WP)
- Each work package defines tasks and activities and the corresponding deliverables
- The lump sum grant is combined with pre-financing payments therefore there is no need to split work packages during the reporting periods (the work package completion will be assessed at final reporting)

## What work packages are & how many?

**What? Work package** means a major sub-division of the proposed project.

Therefore:

- ✗ A single activity is not a WP
- ✗ A single task is not a WP
- ✗ A % of progress of work is not a WP
  - (e.g. 50 % of the tests)
- A lapse of time is generally not a WP (e.g. activities of year 1)

#### □ How many? Minimum of 3 WPs

- ✓ WP1 --- management and coordination activities and all the activities which are cross-cutting and therefore difficult to assign to another specific work package (do not try splitting these activities across different work packages).
- ✓ WP2 --- project activities implementation. You can create as many WPs as needed.
- ✓ WP3 --- The last WP should be dedicated to Impact and dissemination

## Tips for deliverables

What? Expected major tangible output derived from the execution of a series of tasks/activities to demonstrate progress and achievement of each WP's objectives

- Define clear roles and responsibilities for the activities leading up to the acceptance of the deliverable
- Determine who is responsible for providing the necessary resources
- Identify the stakeholders who will validate the deliverable
- Define the specific knowledge and skills they require
- Do NOT include minor sub-items: internal working papers, meeting minutes, internal handbooks, guidelines on how to manage the project and monitoring of finances etc.

## **Examples of deliverables** WP Development – 'Curriculum development' proposals Provide a comprehensive and detailed description of deliverables

Commission

European Commission

## Lump Sum Type II, the mechanism

• Start from a budget based on cost categories, then redistribute by Work Package

#### BUDGET BASED

#### Cost categories

				Estimated elig	ible costs (per bu	dget category)			
				Direct costs				Indirect costs	
	A. Perso	nnel costs	B. Subcontracting		C. Purch	ase costs		E. Indirect costs	Total costs
	A.1 Employees (or equivalent)	A.2Volunteers	B. Subcontracting	C.1 Travel an	d subsistence	C.2 Equipment	C.3 Other goods, works and	E. Indirect costs

$\backslash$	Super Nova	-	160.000	-	160.000
N	Widget Itd	-	-	80.000	80.000
	TOTAL	80.000	160.000	80.000	320.000
/					
			I		

LUMP SUM (90% Co-financing)

## Lump Sum Type II, the detailed **budget table**

- Lump sum proposals must contain a detailed budget table the lump sum defined by the applicants.
- Applicants provide this detailed budget table in an Excel workbook, i.e. the <u>Detailed</u> budget table (ERASMUS LSII) (mandatory annex)
- In this table, cost estimations for each cost category are resolved per beneficiary and per work package.
- The table automatically generates the **breakdown of the lump sum** per beneficiary and per work package.

Cost estimations and the resulting overall lump sum must be plausible and reasonable. They must be **in line with and justified by the activities proposed**, but they cannot be accurate in the way costs can be accurate after they have been incurred.

## Budget cost-effectiveness 1/2

- Value for money: reflect objectively if the outcomes you propose are worth the amount you request
- Balanced budget allocation between the partners
- Coherence of the budget in relation to the deliverables
   and objectives
- Justifications in case of high budget, especially staff costs (countries have a different salary scale)
- Management and coordination costs proportionate to the number of partners to coordinate, size and geographical coverage of the project
- Budget meeting the needs of the beneficiary and enhance inclusion in the ERASMUS + programme

## Budget cost-effectiveness 2/2

- Proposed budget is proportional to the project outputs, expected results and with the proposed action
- Justifications must be provided especially for subcontracting: differentiate between subcontracting and contracts/purchases (<u>MGA</u>)
- Budget must be detailed, clear and justified: beware of consistency of the annex detailed budget 'excel sheet' and Technical Description (DoA) - Part B
- Indicate 'effort units' measured in person-months <u>what is</u> person-month and how to calculate it

	Train-the-trainer		
	A. DIRECT PERSONNEL COSTS		
	A1 employees (or equivalent) person months		
	Professor	1	2.196
	Assistant Professor	2	2.034
	PM/Researcher	1	1.800
	Administrative	1	1.044
	Other		
	A.2 Natural persons under direct contract		
	A.3 Seconded persons		
	A.4 SME Owners without salary		
	A.5 Volunteers		
	B. Subcontracting costs	1	1.000
	C. Purchase costs		
	C.1 Travel and subsistence per travel or day		
6	Travel	6	30
WP 006	Accommodation	30	101
ŝ	Subsistence	36	50
	C.2 Equipment (please refer to the Depreciation Cost sheet)		
	C.3 Other goods, works and services		
	Consumables		
	Services for Meetings, Seminars		
	Services for communication/promotion/dissemination		
	Website		
	Artistic Fees		
	Other (please specify details under worksheet "Comments")		
	D. Other cost categories		
	D.1 Financial support to third parties		
	TOTAL DIRECT COSTS INCLUDING SUBCONTRACTING (A+B+C+D)		
	E. Indirect costs 7% (rounded to zero decimals)		
	TOTAL COSTS (A+B+C+D+F)		

## Budget ceilings & unit costs

For travel, use the distance calculator available on the website (very clear instructions in the <u>FAQs on FTOP</u>). Make sure to check the unit costs for travel, accommodation and subsistence specified in <u>Commission</u> <u>Decision C(2024)5405</u>

Rates to be used for Volunteers You find them in the following Communications of the European Commission:  $\rightarrow$  Volunteers. See <u>C(2019) 2646</u>

#### **Ceilings:**

• The costs for equipment should present a maximum of 35% of the awarded EU grant and the EU grant will cover 100% of the eligible costs.

• The subcontracting should represent a maximum of 10% of the awarded EU grant.

## Budget data to also be filled in the technical description

- O Sections of the Technical Description (PART B) (Standard application form (ERASMUS LSII)
- ✓ The section 2.1.4 Cost effectiveness and financial management must be filled in
- The Subcontracting table below section 4.2 Work packages, activities, resources and timing must be filled in, if relevant (except the field 'other issues' related to subcontracting beyond 30% because the ceiling for subcontracting in this call is 10%)

- 1	Cost effectiveness and financial management (n/a for prefixed Lump Sum Grants)
	Describe the measures adopted to ensure that the proposed results and objectives will be achieved in the most co- effective way.
	Indicate the arrangements adopted for the financial management of the project and, in particular, how the finance resources will be allocated and managed within the consortium.
	1 Do NOT compare and justify the costs of each work package, but summarize briefly why your budget is co effective.

## Award criteria

## AC3: Quality of the partnership and the cooperation arrangements

#### Management

- Solid arrangements are foreseen
- Timelines, governance structures, collaboration arrangements and responsibilities well defined and realistic

#### Composition

- Appropriate mix of organisations with the necessary competences relevant to the objectives of the proposal and to the specificities of the Strand
- · Most appropriate and diverse range of non-academic partners.
- For Region 2 countries: for Strands 1 and 2 priority will be given to projects that involve HEIs from non-capital and/or rural and/or more remote regions.
- For Region 5a, 6, 7a, 8a countries: for Strands 1 and 2 priority will be given to projects that involve HEIs or organisations from least developed countries

#### Tasks

• Roles and tasks are assigned on the basis of the specific know-how, profiles and experience of each partner and are appropriate

#### Collaboration

• Effective mechanisms to ensure efficient collaboration, communication and conflict resolution between the partner organisations and any other relevant stakeholders

#### Commitment

- The contribution from the project partners is significant, pertinent and complementary
- The proposal demonstrates the partners' involvement, commitment and ownership of the project's specific objectives and results, in particular from the third countries not associated to the Programme

#### In particular for Strand 2

• The proposal involves relevant non-academic organisations and stakeholders that will bring an innovative added-value to the proposal objectives. For proposals that aim to supporting value chains in key priority areas of investment at national or regional level, the private sector are included in the partnership and clearly engaged at all necessary levels.

#### In particular for Strand 3

• The proposal demonstrates that the competent national authorities for higher education are strongly involved in the steering and implementation of the action.

# Partnership & cooperation arrangements | Where to address this?

- O Chapters 2.1.3; 2.2.1; 2.2.2 & Chapter 4 of the Technical Description (PART
  - B) Standard application form (ERASMUS LSII)
  - 2. QUALITY
  - 2.1.3 Project teams, staff and experts

2.2 PARTNERSHIP AND COOPERATION ARRANGEMENTS 2.2.1 Consortium set-up 2.2.2 Consortium management and decision-making

4. WORK PLAN, WORK PACKAGES, ACTIVITIES, RESOURCES AND TIMING 4.1 Work plan 4.2 Work packages, activities, resources and timing

Quality of the partnership & cooperation arrangements | Guiding questions

- Are the participants appropriate mix of complementary competencies to deliver the project objectives? Why do you think you are the right partnership?
- In what way does each of them contribute to the project? Does each of them have a valid role, and adequate resources in the project to fulfil that role?
- Are there effective mechanisms for coordination and communication within the partnership and with potential beneficiaries and stakeholders?

## Award criteria

## AC4: Sustainability, impact and dissemination of the expected results

#### **Exploitation**

• How the outcomes of the project will be used by the partners and other stakeholders; how multiplier effects will be ensured and it provides means to measure exploitation within the project funding time and after

#### **Communication & Dissemination**

 Clear and efficient communication plan and a strategy for the dissemination of results, appropriate activities and their timing, tools and channels to be spread effectively to all relevant stakeholders and non-participating audience, reaching out and attracting relevant stakeholders to the outcomes within and after the project's funding time

#### Impact

- Tangible impact on its target groups and relevant stakeholders at local, national or regional level,
- Measures, goals and indicators to monitor progress and assess the expected impact at individual, institutional and systemic level

#### **Sustainability**

• Explains how the project results will be sustained financially (after the end of the funding) and institutionally and how the local ownership will be ensured and where relevant, how the private sector will be engaged during and after the project funding

#### In particular for Strand 1

- The proposal ensures a continuous and sustainable response to the existing barriers and the increase of accessibility of students/staff with fewer opportunities to the learning opportunities and resources offered by the HEIs.
- The proposal is likely to increase the international cooperation capacities of institutions in third countries not associated to the Programme.

#### In particular for Strand 2

- The proposal ensures a significant impact on the institutions of the third countries not associated to the Programme, in particular on the development of their innovation capacities and the modernisation of their governance, in opening themselves up to the society at large, the labour market and the wider world.
- The proposal demonstrates its potential for wider impact on the society and/or the economic sector.

#### In particular for Strand 3

- The proposal demonstrates how the project results will lead to policy reforms or modernisation in higher education at systemic level.
- In regions 5a, 6, 7a, 8a, 9,10 and 11, the proposal demonstrates how the project results will lead to a sustainable engagement of the higher education institutions and sector in the given Erasmus+ Global Gateway-related priority area.

## Impact | Where to address this?

• Chapters 3.1; 3.2; 3.3 & possibly Chapter 4 of the Technical Description

(PART B) - <u>Standard application form (ERASMUS LSII)</u>

**3. IMPACT** 

3.1 Impact and ambition3.2 Communication, dissemination and visibility3.3 Sustainability and continuation

4. WORK PLAN, WORK PACKAGES, ACTIVITIES, RESOURCES AND TIMING
4.1 Work plan
4.2 Work packages, activities, resources and timing

## Impact | Guiding questions

- Are quality measures for evaluating the outcomes foreseen?
- Is the potential impact on participants and participating organisations measurable? Is it sound in the short term and after the project lifetime?
- Are potential barriers to the expected outcomes and impacts identified? Is the management of the potential negative impacts properly described?
- Are the proposed communication & dissemination plans appropriate?
- Does the proposal describe how projects outcomes will be made available? Are project's results made freely available?
- Is there a sustainability plan? Is it solid, credible?

## Communication vs. Dissemination

- Awareness of objectives
- Visibility of project activities

## Disseminating results

scientific publications, books, website, workshops, conferences, social media, media (newspapers, magazines, TV, radio)

 Identify your target groups: academics, students, politicians, public/private sector, press, companies, organisations, agencies, etc.

 Be as explicit as possible: name publications/conferences, expected dates, types and size of audiences

## Impact

## **Maximasing impact**

## On the involved institutions modernisation of HEIs and reform of HE sector

## On the economy

development of third countries, creation of jobs

## On the society

on public policies and civils society

## Impact and timing

## Short term changes in: knowledge, skills, aspirations, attitudes, awareness

## □ Medium term changes in:

behaviour, practices, procedures, values, decision making

Long term changes in: policies, legislation, economy, society, technology, environment

## Sustainability

Analyse what you have produced.

Who should it be shared with? Why? How? When?

Consider the connections you have made.

How can this collaboration be continued?

Identify elements that will require funding to be sustained.

How can our own resources be used? How can we generate further funding (internal or external)?

## Tips and lessons learnt

# Elements of a strong project proposal

#### **CBHE2025** Call for Proposals

## Concrete, evidence-based, targeted

Identify the need for such a proposal:

• It is not about solving the world's problems, but about solving a specific issue of added value for the third countries not associated to the programme in your consortium

Specify the problems, solutions, tangible outcomes & target groups

- Ex-ante needs analysis, state of the art
- Use examples, justify your statements, bring proofs

## Coherent, consistent & shared ownership

It makes sense in its entirety:

- Keep a structure to maintain your train of thoughts to ensure consistency & logical flow from one section to another
- Keep it legible: better a few well-chosen words than long/vague explanations

It showcases joint effort and ownership:

- Checked & verified by all partners before the coordinator submits the proposal on behalf of the consortium
- Full institutional commitment and support of all consortium partners

## Rigorous, skilled, ready

- Quality level of the proposal is the basis on which your project will be implemented & the cornerstone of your partnership commitment
- Realistic planning & budget aligned with activities (which activities, when, for how long, and with what resources)

- Puts forward skilled project management & partnership mix based on strong cooperation mechanisms
- Is ready to start immediately after the selection decision, deliver successful outcomes & make a positive impact

## Frequent weaknesses in proposals

- Weak needs analysis (e.g. not carried out among the main target group or the third countries not associated to the programme that are involved in the consortium)
- Unclear logical link between objectives, WPs, deliverables and resources
- Methodology lacks clarity & detail
- Innovation for innovation's sake, limited reflection on what kind if innovation would benefit higher education in local contexts (those of the third countries not associated to the programme involved in the proposal)
- Insufficient expertise to tackle overly ambitious goals
- Unbalanced resource allocation among activities & partners
- Communication & dissemination generic and not suitably addressed in relation to the target audience(s)
- Impact & sustainability not substantiated enough, in particular the users of the project results & the social/societal benefits not clearly identified

European Commission

## Before you start... Understand the application process & Manage time wisely

- Identify & locate key information on the FTOP call page & Erasmus+ Programme Guide
- Take the time to understand the different steps of submission, how the application form and annexes are constructed – read them more than once
- Register in the Participant Portal
- It is a time-intensive process and will require dedicated staff time
- Allow time for drafting and reviewing the texts
- Don't wait until the last minute of the last day before submitting the application!

## Learning from existing projects & partners

#### Erasmus+ Programme Results platform\*

 includes all Erasmus+ projects (selected every year at national and European level) up to call 2020

\*https://ec.europa.eu/programmes/erasmus-plus/projects\_en
