EYT2025 | Elements of a strong project proposal

Coherent, explicit

- It **makes sense in its entirety**: keep a **structure** to maintain your train of thoughts to ensure **consistency & logical flow** from one section to another
- Showcases **joint effort and ownership**, checked & verified by all partners before the coordinator submits the proposal on behalf of the consortium
- Do not take anything for granted: if it is not **stated in the application** it cannot be taken into account

Simple, focussed

- Keep it **legible**: better a few **well-chosen words** than long/vague explanations
- Keep your **language simple**, avoid jargon and abbreviations or else explain them

Concrete, evidence-based, targeted

- Identify the **need** for such a proposal: it is not about solving the world's problems, but about **solving a specific issue of EU added value**
- Specify the **problems, solutions, tangible outcomes & target groups**
- Ex-ante **needs analysis, state of the art**
- Use examples, **justify your statements**, bring proofs

Rigorous, skilled

- **Quality** level of the application **is the basis** on which your project will be implemented & the **cornerstone of your partnership commitment**
- Realistic **planning & budget aligned with activities** (which activities, when, for how long, and with what resources)
- Puts forward **skilled project management & partnership mix** based on strong cooperation mechanisms

EYT2025 | Youth target group (1/2)

Target Group

Who is this project for?

Is your target group clearly defined & visible throughout your proposal?

Is your target group diverse enough i.e. including youth with fewer opportunities?

Problem

What problem are they experiencing?
What are their needs?

Objectives

How can you address this problem to bring solutions and meet these needs?

Are the objectives clearly defined, realistic and address issues relevant to the participating organisations and target groups?

European
Commission

Education, Audiovisual and Culture
Executive Agency

EYT2025 | Youth target group (2/2)

- **Youth engagement:** active engagement with a diverse youth population including those from **remote/rural areas and/or with fewer opportunities**
- Consider the minorities/people with fewer opportunities you have access to & demonstrate you promote inclusion and youth diversity in your proposal:
 - What type of groups will you engage with and why are they relevant to the project? Is their inclusion credible?
 - How will you perform outreach to these groups? Have you considered obstacles to their participation? Are these reflected in your risk management strategy?
 - What will be their role in the project activities? How will you will select participants and engage with them?
 - What practical arrangements are needed in the activities planned with these participants (i.e. to facilitate their access, take into account special needs, impact on budget)?

Needs analysis

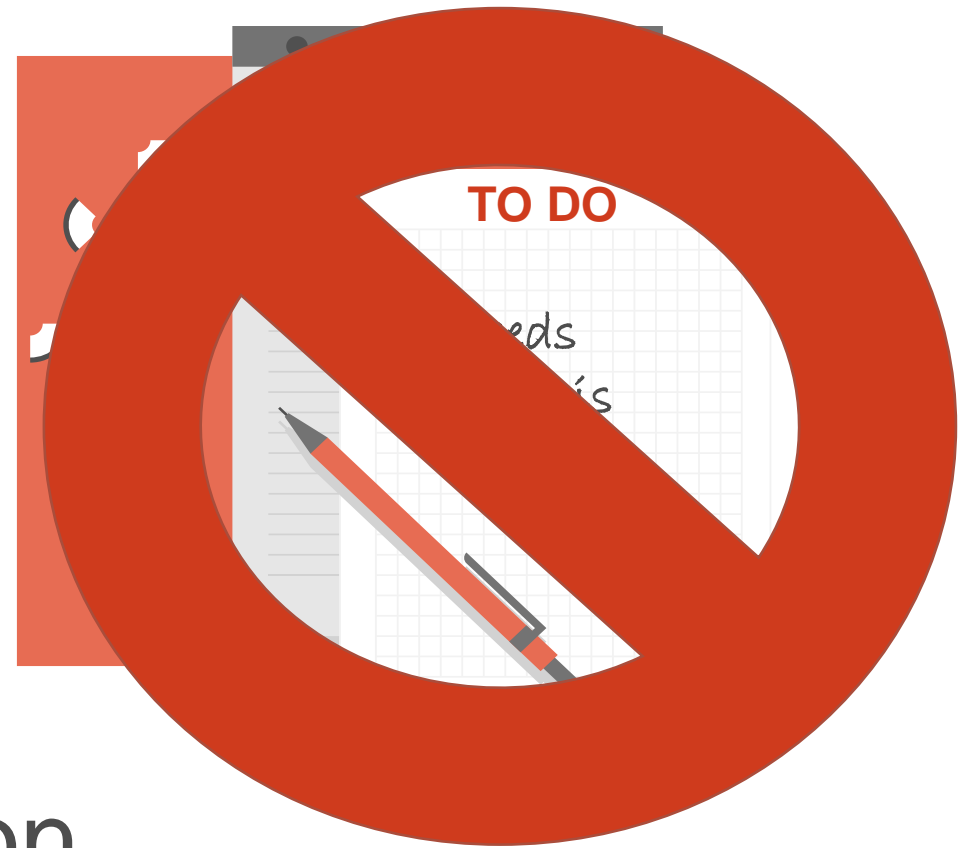

“the proposal demonstrates that it is based on a thorough needs assessment based as far as possible on **verifiable facts and figures** supported by **general and specific data** relevant to all countries and organisations in the consortium. A clear needs analysis linking to the **concrete realities of applicants, partners and target groups** is expected.”

Needs analysis

This is not a project activity!

Already completed:

- forms part of the application
- forms the foundation of the project

European
Commission

Education, Audiovisual and Culture
Executive Agency

Needs analysis

Based on **up to date, verifiable facts and figures**: cite, give sources, evidence from own research conducted

Evaluations

“The needs analysis is confined to a **short narrative of the needs**, lacking in verifiable facts and figures.”

“The needs analysis is not based on verifiable facts and figures. This is a **major limitation**.”

“However, concrete data and documents that support these needs are not mentioned in the project, which does not help for a complete understanding of the problem (**general mentions to ‘primary research, reports and learning materials**).”

European
Commission

Education, Audiovisual and Culture
Executive Agency

Multi-level needs analysis

“...general and specific data
**relevant to all countries and
organisations in the consortium**”

Evaluations

“The needs assessment shows a good grasp of the general and specific conditions that affect European youth. There is, however, **less specificity with regards to country-based data, and data pertaining to the organisations involved in the consortium.**”

Reflections from the experts:

“lots of figures and data from Eurostat etc. but not focused on target groups”

European
Commission

Education, Audiovisual and Culture
Executive Agency

Evaluations

“The needs analysis draws on **facts and figures from relevant reports from Eurofound, the Council of Europe, and the OECD** examining youth concerns and priorities, particularly in the wake of the Covid pandemic, with findings about increasing feelings of exclusion, and voicelessness. This is **supported by a local survey** (5396 respondents) carried out by the applicant, identifying the **specific concerns, priorities, and perceptions of local young people.**”

European
Commission

Education, Audiovisual and Culture

Needs ANALYSIS, not Needs Description

Critical engagement with the data

- Why are there gaps in the data?
- What has been done thus far/is being done to address these problems?
- Has 'X' policy worked?
- Why do these problems persist?

European
Commission

Education, Audiovisual and Culture
Executive Agency

Evaluations

“The needs of young people with mental disabilities are clearly articulated and very well justified in the **well-argued needs analysis**, demonstrating **the consortium's understanding of the situation**, the **gaps in evidence**, and highlighting the specific needs of youth with mental disabilities. **Problems** of the target groups (lack of/denied access to participate in the democratic process and civic life) in the partner countries **are appropriately justified.**”

What methodology is being used and why?

Needs analysis as the foundation

Evaluations

“The quality and effectiveness of the project’s conceptual and methodological approaches for the proposed activities are not sufficiently specified. **With the underdeveloped needs assessment, the logical links between the identified problems and the proposed solutions are not based on sound evidence.**”

European
Commission

Education, Audiovisual and Culture
Executive Agency

The link between needs, objectives and activities may be clear to you, but not to the experts...

“Less clearly explained in section "2.1.1 Concept and methodology" is the component 2 “research and analysis”. Especially, **it is not clear why a research component is needed after the needs assessment, and how and to what extent it is different from it.**”

“**It is unclear how producing a cookbook** with only a limited number of recipes **will promote inclusion and active participation**. The proposal thus **fails to demonstrate a clear connection** between what the young people learn during the cooking workshops and how this will empower them in life.”

“For example, for “Identification and raising awareness of mobile EU youth participation in local social and democratic life”, **the proposal does not explain clearly enough how the activities** Tasks 1.3 “Study Visit in Greece” and 1.4. “Youth Exchange in Romania” **are conducive to the fulfilment of the aims of this work package.**”

Evaluations

“The proposal follows a clear, logical path in building up the intervention. It is based on the principles **of connecting, engaging, and empowering** the beneficiaries, through means of action research and the creation of opportunities for a meaningful dialogue with relevant, national and EU level policy stakeholders. However, **the links between the intervention at the local level and the desired EU level are not shaped in an equally convincing manner**”

Cost-effectiveness

“the proposed budget is coherent, detailed enough, suited for the implementation of the project and designed to ensure the **best value for money**.

Executive Agency

What is meant by "cost-effectiveness" exactly? 1/2

- ✓ Value for money
- ✓ Allocation between the partners secured
- ✓ Coherence of the budget in relation to the deliverables and objectives
- ✓ Justifications in case of high budget, especially staff costs (countries have a different salary scale)
- ✓ Management and coordination costs proportionate to the number of partners to coordinate, size and geographical coverage of the project
- ✓ Budget meeting the needs of the beneficiary and enhance inclusion in the ERASMUS + programme

European
Commission

Education, Audiovisual and Culture
Executive Agency

What is meant by "cost-effectiveness" exactly? 2/2

- ✓ Proposed budget is proportional to the project outputs, expected results and with the proposed action
- ✓ Justifications must be provided especial for subcontracting: differentiate between subcontracts and contracts/purchases ([MGA](#))
- ✓ Budget must be detailed, clear and justified: beware of consistency of the annex detailed budget 'excel sheet' and DoA Part B
- ✓ Indicate 'efforts' measured in person-months - [what is person-month and how to calculate it](#)

Evaluations

"While the budget is coherent, it **offers little engagement with grassroots organisations or vulnerable young people**, as distinct from young people at university. The cost-effectiveness of the planned budget costs is not proven. There is a **heavy distribution of the budget in favour of one of the consortium** partners, dealing with the majority of the planned activities which makes **the budget rather unbalanced.**"

Evaluations

“The budget is **well-balanced** among partners and WP (even the costs for WP 1 -management and coordination). Even though the partnership in the consortium is smaller in size in comparison with similar projects, the **budget agrees well the size and scope** of the proposed activities and the intervention is a cost-effective one. The budget **adequately covers the needs of grassroots organisations** (whose capacity it aims to increase) as well as those of vulnerable young people from rural areas that will benefit from a meaningful inclusion in the ERASMUS + Programme.”

EYT2025 | Quality of the partnership and the cooperation arrangements (20 points)

- ✓ **Partnership profile:** an appropriate mix of complementary organisations with the necessary profiles, skills, experience, and management support to achieve the project objectives; the added value of the for-profit organisations is clearly demonstrated, if involved in the consortium
- ✓ **Geographic spread:** capacity to reflect the European economic, social and/or cultural diversity through its geographic spread so as to ensure a truly pan-European cooperation
- ✓ **Local NGOs development:** the partnership has the ability to develop the capacities and knowledge of local NGOs not well established at European level
- ✓ **Commitment & tasks:** the distribution of responsibilities and tasks in the partnership is clear and appropriate; the coordinator shows high quality management and potential for coordination of transnational networks and leadership in complex environments; young people are suitably involved in all stages of the project implementation
- ✓ **Cooperation arrangements:** suitable governance mechanisms & plans for effective coordination, decision-making, communication and conflict resolution

EYT2025 | Impact (20 points)

- ✓ **Impact & Sustainability** : sound pathways for contributing to at least one of the expected impact areas of the action; particular focus on upscaling the grassroots organisations' activities; contribute to changes at system level in the youth sector both within the project lifetime and beyond, to enable long lasting cooperation at EU level and/or inspire new EU youth policies and initiatives
- ✓ **Communication & Dissemination**: capacity to undertake youth outreach and ability to communicate effectively on problems and solutions of the communities they represent to a broader global audience; a sound plan for the communication and dissemination of results which includes appropriate targets, activities, tools and channels to ensure that the results and benefits will be spread effectively to policy makers - measures are proportionate to the scale of the project, and contain concrete actions

 - Provide **justification** for their use/timeline

Feedback from the experts

“in the majority of the projects applicants **fail to connect dissemination tools to the relevant project phases**”

Sustainability

“Sustainability: the proposal clearly identifies how the outcomes of the project could **contribute to changes at system level** in the youth sector both within the project lifetime and beyond, with high potential to enable **long lasting cooperation** at EU level and/or **inspire new EU youth policies and initiatives.**”

European
Commission

*Education, Audiovisual and Culture

Sustainability

- Not merely ensuring that the project results will be sustained beyond the project lifetime

Evaluations

“The proposal does not clearly show how the project has a realistic pathway to causing a systemic change in European youth strategy. The long-term impact will principally be local. The deliverables are valid as tools for supporting replication beyond the project, but **how and why such adoption might take place at scale is not shown** – i.e. **because the toolkit is available for download and use does not mean that it will be used.**”

Commission

How will you instrumentalise your results?

Evaluations

“**Specific sustainability strategies for the main results** (e.g. a training manual on peer-education, a community of practice compendium) **are missing**”

“...mentions of general aspects such as ‘deepening the impact of the work done’, ‘the development of an existing network’ or ‘the findings as a steppingstone’ lack consistency and detail.” **HOW?**

“Sustainability is weak and limited to **unsupported statements of intention.**”

**Who should it be shared with?
Why? How? When?**

Consider the connections you have made.

How can this collaboration be continued?

Evaluations

“There are convincing explanations provided in the proposal about the potential to contribute to **lasting changes** that may be achieved at a systemic level in the youth sector, also through ensuring **financial support and continuity of initiated linkages with stakeholders**. The last task under the dedicated Work Package is devoted to exploitation and contains a description of well-targeted efforts to **identify sponsoring opportunities** for the e-magazine and other sources of funding for carrying out all the activities.”

Where to address this?

3.3 Sustainability and continuation

Sustainability, long-term impact and continuation

Describe the follow-up of the project after the EU funding ends. How will the project impact be ensured and sustained?

What will need to be done? Which parts of the project should be continued or maintained? How will this be achieved? Which resources will be necessary to continue the project? How will the results be used?

Are there any possible synergies/complementarities with other (EU funded) activities that can build on the project results?
