African Continental and Regional Integration frameworks for HE

Political support for and piloting of the ACTS

Work Area 2: African Credit Transfer System

Overview

Vision for Africa

**TO BUILD AN
INTEGRATED
CONTINENT
WITH
HARMONIZED
EDUCATION
SYSTEMS**

where

- 1. intra-Africa mobility** and
 - 2. skills portability**
- are key elements in its realization.

Build the **Pan African Quality Assurance and Accreditation Framework** (PAQAF), which will provide common frameworks and tools for a common language quality assurance in Africa and the mutual recognition of academic qualifications.

Develop **African Continental Qualification Framework** (ACQF) – which will promote recognition and transferability of knowledge and labor across Africa

Develop the **African Credit Transfer System (ACTS)** –which will ultimately enable higher education systems to be more readable, supplementing efforts for common QA standards and the development of the ACQF.

*****Tools and action lines for transparency between systems, trust, a common language for quality, mobility and recognition***

What the African Credit Transfer System allows for

Powerful tool to help systems and HEI re-think how learning is structured – **Learner Centred.**

Orientates learning and knowledge acquisition towards **a learning outcomes-based approach** and

Promotes a concept of **student workload** that encompasses contact hours and non-classroom hours

Achievements

1. Common agreement on the definition and value of a credit in African higher education systems in order to promote transferability and comparability—key to harmonizing the African higher education space and promote mobility.
2. Consensus on the workload of a credit unit.
3. Consensus on the number of credit units for each year and for the different programs, i.e. Bachelors, Masters. The general trend is that 60 credits are equivalent to the workload of full-time student during one academic year = 1300-1800 hours.
4. Harmonized continental credit system that balances the different systems that span the continent: Anglophone, Francophone and Lusophone countries.

Africa Credit Transfer System

- Harmonization
- Transferability of knowledge
- Mobility of learners
- Free movement of labour
- Regional and continental integration

Results expected under HAQAA3

Result 1.2: The ACTS (proposed by TUNING II and promoted in HAQAA2) is finalized and supported in higher education authorities and HEIs in all five African regions, through regional university associations and QA/accreditation networks.

- a) Organise a broad consultation of relevant national and regional authorities and HEIs in order to complete the definition of the Credit Transfer System;
- b) Produce an ACTS User Guide including a particular emphasis on calculating workload and allocation of credits;
- c) Produce and promote training materials on its application;
- d) Organise a pilot in a selected sample of universities covering all African regions
- e) Organise training of ACTS ambassadors

Deliverables

- Report on the state of the art in Africa on academic credits
- Feasibility report on moving forward with the implementation of the ACTS
- 100 Universities pilot the ACTS in a selected degree program
