Jean Monnet Actions – European Union studies

Defining European Union studies

European Union studies it is refers to the **study of Europe in teaching, learning and research about the European Union, its entirety, its history, aims, structures, functions and/or its policies.**

By focusing on the European Union dimension, the Jean Monnet activities should **promote active European citizenship** and the **founding values of the European Union of respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, including the rights of persons belonging to minorities** (Article 2 of the Treaty on European Union). In the case of European Union policies, Jean Monnet actions must contribute to spreading knowledge about how these policies can benefit the daily lives of citizens in the EU and/or abroad, and/or how these can influence the policymaking system, in similar fields, either at the Member State level or abroad at a national, regional or global level.

A very clear link between the subject of the proposal and the EU policy and/or EU topic that it refers to should be displayed.
