- 1 lump sum = 1 work package = 1 ‘event’ = one or several activities
- Work packages represent the **major subdivisions of a project**, with a clearly defined objective, activities, deliverables, milestones and timeframe.
- The work package structure should align with the project’s methodology, **ensuring clear, logical segmentation** without undue repetitions.
- **Double funding is not allowed.** Direct participants can be counted only once for the whole work package/‘event’ even if they participate in several activities.
- Activities involving the same direct participants but belonging to different work packages **should in principle not have overlapping timeframe** (i.e. taking place on the same/consecutive days).
- Should that occur, the same direct participants must be counted only once under one work package.
- e.g. **one WP/‘event’** on youth participation in elections
activities: two focus groups in situ & analysis, mapping, research

Best practices

Consortium

- Meaningful partnership composition, fit for achieving proposal objectives, where partners have experience in the field, access to the target group(s),etc.
- Carefully choose your partners to avoid situation when they may withdraw at a later stage, and to be ready to handle eventual conflicts.
- Find [partners](#) – 211 entries on the FT, contact NCPs
- Partners who provide low quality input to the drafting of application might not provide high quality input into the project.
- Ensure that partners are responsive and will be ready to implement the project if your proposal is selected for funding.
