

Capacity building in the field of Vocational education and training (CB VET)

*European Education and Culture
Executive Agency (EACEA)*

About CB VET

Capacity building projects are international cooperation projects based on multilateral partnerships between organisations active in the field of VET in:

- EU Member States
- Third countries associated to the Programme
- Third countries not associated to the Programme

CB VET projects aim to support the **relevance, accessibility, responsiveness** of VET institutions and systems in third countries not associated to the Programme

Objectives

- **Build capacity of VET providers to strengthen cooperation between private and public stakeholders in VET** for demand-oriented and opportunity-driven VET interventions;
- Improve the **quality and responsiveness of VET** to economic and social developments to enhance the labour market relevance of skills provision;
- Align VET provision to **local, regional and national development strategies.**

Thematic Areas – Focus on one or more

VET teachers/trainers professional development

Key competences, including entrepreneurship

Public Private Dialogue Partnerships in VET

Quality assurance mechanisms

Capacity Building in VET

Innovation in VET

Work-based learning (for young people and/or adults)

Green and digital skills for the twin transition

...

Skills matching with current and future job opportunities, including in promising value chains under development

Activities

- Creating and developing **networks and exchanges** of good practice between VET providers
- Creating **tools, programmes and other materials to build the capacity** of institutions from third countries not associated to the Programme
- Creating mechanisms to **involve private sector** (design and delivery of curricula, work-based experience)
- **Developing and transferring pedagogical approaches**, teaching and training materials, including work-based learning, virtual mobility, open educational resources and better exploitation of the ICT potential
- Developing and implementing **international (virtual) exchange activities for staff** primarily

Horizontal Aspects

Applicants are required to take into account:

Inclusion and diversity

Environmental sustainability

Digital dimension

Common values, civic engagement
and participation

REGIONAL PRIORITIES

You are encouraged to work with partners in the **poorest and least developed third countries not associated to the Programme**

Western Balkans

Abstract

3DGaT addresses VET initial and continuous training in the garment sector, in Jordan and Palestine. It builds on the recommendations obtained by a previous Erasmus+ Capacity Building project for HEIs, on similar studies in Palestine and it follows the Priorities for Action from ETF for Human Capital Development in both countries. It aims at modernizing the offered VET training by incorporating the principles of 3D Garment Design into the curricula of Initial VET training and also in advancing the knowledge of existing employees in design departments. The project will draw knowledge from the participating HEIs and training providers, which offer courses on 3D Garment design, adapt it to the needs of VET providers and Final Users and transform it into curriculum, profile design and training reform actions for newcomers and for existing employees. It will improve the level of competences, skills and employability potential of VET learners by developing new and innovative VET education programs, by delivering key competences and ICT skills related to 3D garment design. The specific objectives of the projects are to: Establish an innovative lab center for creativity and design "Garment and Fashion Design Center" one in each country, to design and implement comprehensive training programs for students, semi-skilled workers, trainers, stakeholders based on the assessment of needs including study tours for selected participants to an internationally renowned fashion institution, to developing and implement promotional and marketing strategies and materials including a market outlook, and assisting workshops/entrepreneurs to consolidate business linkages with local and international markets. Work is accomplished in 6 work packages, and the consortium consists of HEIs, a Technical College, NPOs and a Technological Centre, specialised in training for the textile and garment sector.

What makes a good project?

- **Consortium composition** (including players in VET, world of work, decision makers)
- **Clear needs analysis** (for the region/countries, for your partners, for your participants)
- **Realistic impact** (explaining what will your project change in VET, concise objectives)
- **Concrete outputs and deliverables** (clearly supporting capacity in VET)
- **In line with policy documents and regional priorities** (see Programme Guide)
- **Balanced EU grant** (remember: focus is on third countries **not** associated to Programme)

Feedback from our monitoring (I)

- Projects which have done an impactful Needs Analysis have a more focused/easier implementation
- Projects which deliver impact for the learners are particularly of interest for Feedback to Policy
- Impactful deliverables (rather quality than quantity)
 - Reporting Periods (RPs) are contractual obligation and do not need deliverable on it
 - Milestones in between month 1 – 18 and 20 – 36, to accomplish the RPs

Feedback from our monitoring (II)

- Communication/Dissemination/stakeholder engagement starts as of day one: cover it in the proposal and 2-3 deliverables accompanying the implementation.
- Partner constellations: Big consortia are more difficult to manage; those consortia which manage to establish already at proposal-stage a thorough and detailed collaboration have it easier in the implementation.

How to find coordinator/partner

Finding coordinator/partner – Try different ways

1.
If you already have contacts with VET providers in EU or third countries associated to the Erasmus+ Programme, get in touch with them **to check if they plan to apply** under this action.
2.
Contact **European networks** of VET Providers (e.g. EVTA, EVBB, EfVET, EUproVET) and networks that represent higher education institutions also active in the field of VET (e.g. EURASHE, EUCEN).
3.
Organization active in **lifelong guidance, counselling, learning mobility and career management** contact the European network [Euroguidance](#).
4.
Involve other organizations from your country – make your project stronger.
5.
Involve other organizations from **other countries of the same region** – it might be they have contacts to organizations from EU/third countries associated to the programme.

Finding coordinator/partner – Try different ways

6.
Erasmus+ VET-related projects (2014-2020) on the [Erasmus+ Project Results Platform](#). Please use the 'advanced search', selecting Erasmus+ Programme and within the different actions please focus on vocational education and training.

7.
Use the section "*Partner search announcements*" - <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/how-to-participate/partner-search> - in the [Funding & Tenders Opportunities Portal](#) (FTOP)

8.
Contact VET experts from you country you know – it might be they help you to find a coordinator/partner.

9.
CEDEFOP – European Centre for Development of VET <https://www.cedefop.europa.eu/en> , **REFERNET** – is a network of institutions. It provide information on national vocational education and training (VET) systems and policies in the EU Member States, Iceland and Norway.

Finding coordinator/partner – Try different ways

10.

[EPALE \(Electronic Platform for Adult Learning in Europe\)](#) platform and/or you could register to the [Community of European VET practitioners](#).

11.

The [Katapult Network](#) includes a network and matchmaking tool to build relationships with new partners. The direct link to the matchmaking tool is [here](#). [How does it work?](#)

12.

If you are a member of the European Training Foundation (ETF) Open Space, you may look for partners [there](#). In particular, you may contact the [Network run by the European Training Foundation \(ETF\)](#) that includes numerous VET centers in Europe and ETF partner countries as well as the [ETF Quality Assurance forum](#) that involves more than 20 countries. In this context, you may consult the [ETF regions and countries](#).

13.

Contact **National Erasmus+ Office** (see the list [here](#)), which may have received requests for cooperation from potential CB VET applicants.

Useful tips

- ✓ **Be coherent:** avoid contradictions and “cut and paste” style applications
- ✓ **Be concrete:** use examples, justify your claims, provide evidence
- ✓ **Be clear:** read the questions carefully, provide information in the correct order as indicated in the form
- ✓ **Be explicit:** take nothing for granted; don't assume that experts have prior knowledge; avoid abbreviations or explain them
- ✓ **Be realistic:** the application is the basis of your project to be; it is also the cornerstone of the commitment you will sign
- ✓ **Remain focused:** concentrate exclusively on what is asked of you
- ✓ **Eligibility:** make sure you have followed all instructions and that the proposal meets all mandatory requirements
- ✓ **Keep it simple:** use short sentences, vary the length if you wish to make it more interesting but keep it simple and focused
