Often, tools are listed but without further detail.• Have a monitoring and control system and tools to ensure a timely implementation of the project activities.• Identify a set of quantitative and qualitative indicators to support the evaluation strategy.• Demonstrate how green practices are incorporated in different project phases. Award criteria - IMPACT

Sustainability:

How to ensure the impact of the project **beyond** the project lifetime?

Concrete plans and **measures**, a defined sustainability strategy at application stage:

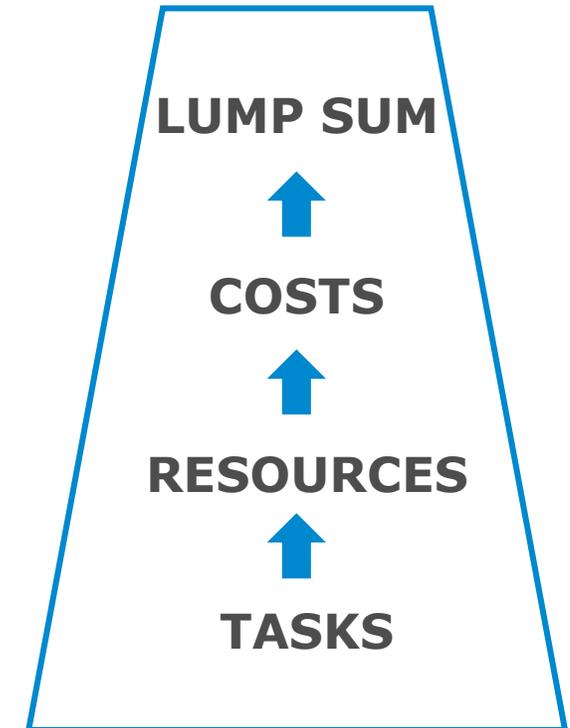

How will you ensure that the project continues to produce **impact and results**?

Do you envisage future **cooperation** among partners beyond the project lifetime?

Tip 8: Create a budget

Define your budget « bottom-up »

1. Describe the **tasks** – then define the **budget**
2. Check **consistency** regularly while working on your work plan:
 - Share of resources
 - Appropriate allocation between partners
3. **Choose** one of the 3 prefixed lump sum grants **most suitable** for your estimated costs
(EUR 120 000, EUR 250 000 and EUR 400 000)

How to choose the right lump sum?

- Based on the **overall cost of the project** - which would be the lump sum more suitable for the project's needs and objectives?
- **Co-financing principle**
- Elements to take into consideration:
 - **Value for money**: adequacy to the content and objective of the proposed activities
 - Level of complexity and ambition of the proposal
 - Number of participants, duration of the project and number and type of proposal activities and deliverables

NO NEGOTIATION PRINCIPLE

The requested lump sum grant is part of the **quality assessment**.

If the requested lump sum grant is considered as not coherent with the complexity of the work plan, the **proposal will receive low points > not pass the quality thresholds**.

Tip 9: Final polishing

- Check the **completeness** of the proposal
- Check **consistency** of description of activities, between the budget section in Part A proposal (online administrative forms) and the excel Calculator.
- Ask someone for **critical reading** and feedback
- If you have the chance, have a native speaker for **proofreading**
- **SUBMIT YOUR PROPOSAL ON TIME!!**
