# European Strategy for Universities: 4 objectives

## 1 Strengthen the European dimension in higher education and research

Bringing transnational cooperation to a higher level contributes to a culture of excellence and inclusion, a true European identity, and global competitiveness and attractiveness

## 2 Consolidate universities as lighthouses of our European way of life

### Strengthen quality and relevance for future-proof skills

*In a fast changing environment, universities need to strengthen their capacities to equip young people, lifelong learners and researchers with the right competences and skills*

### Foster diversity, inclusiveness and gender equality

More institutional changes are needed for universities to become places of truly equal opportunities

### Promote and protect European democratic values

Universities need to be places of freedom: for speech, thought, learning, research

## 3 Empower universities as key actors of change in the twin green and digital transitions

### Develop skills, competences and technological innovation for the green and digital transition

Universities are key actors for the green transition and for a more sustainable world. We need to make 'connected universities' a reality

## 4 Reinforce universities as drivers of Europe's global role and leadership

Universities are instrumental in building Europe's connections with the world

Expand to **60 European Universities with more than 500 universities by mid-2024**, with an Erasmus+ indicative budget totalling EUR 1.1 billion for 2021-2027.

Work towards a **legal statute for alliances** of higher education institutions: pilot as of 2022 under Erasmus+ the implementation of existing European instruments

Examine options and necessary steps towards a **joint European degree**: pilot as of 2022 under Erasmus+ the first steps towards a joint European degree, in particular the development of European criteria for the award of a European Degree label

Scale up the **European Student Card initiative by starting deploying a unique European Student Identifier** to all mobile students in 2022 and to all students in universities in Europe by mid-2024
