

How to fill in project budget table (Lump sum)

Practical guidance

Unit A2, Skills Sector

European Education and Culture Executive Agency

Lump Sum and concept of work package (WP)

- In the proposal, applicants must provide a **detailed estimation of costs** and the grant requested
- We will ask you to present this budget as a **'build-up' of work packages (WP)**
- A work package means a major sub-division of the project. For each work package, there is an **objective, and a list of activities and deliverables**
- Projects should normally have a minimum of 2 work packages and can be managed with **less than 10 as an average**
- Each work packages can have **multiple deliverables** (a single activity is not a WP)

Lump Sum Type II, the mechanism

- The mechanism consists of converting a multi costs categories budget into a simple lump sum amount to be **operationally** verified in terms of **completion of deliverables**.
- The estimated budget must comply with the basic eligibility conditions for EU actual cost grants (see [AGA — Annotated Grant Agreement, art 6](#))
- Please use the amounts that correspond to real cost of different activities for preparing estimated project budget. The evaluation of the costs effectiveness and value for money will be carried out during the assessment of proposals and, as a result, **your budget could be confirmed or amended**.
- One lump sum amount is fixed in the grant agreement **for each work package** (Annex 2, “Estimated lump sum breakdown”)
- If you manage to **implement a WP and produce deliverables**, you will receive the corresponding lump sum amount.

Lump Sum Type II, the mechanism

- Starting from a Budget, based on cost categories, then redistribute by Work Package

Most of the projects cannot declare equipment costs as they are already included in the indirect costs

However, in some exceptional circumstances, the purchase, rent or lease of equipment that are specific and necessary for the project could be accepted

The indirect costs are automatically calculated and are intended to cover all costs linked to the general administration of the project (PCs, portables, supplies, paper, electricity, etc.)
