The lump sum model conditions the **payment of the lump sum contributions** to the performance of the activities

Take into account when setting-up your consortium!!

Tip 5: Choose your idea, structure it well and stick to it!

Ask yourself if you have:

- A clear project **objective**
- A clear understanding of the current **start of art** in the field of intervention / sector
- A clear identified **need**
- A clear **target group(s)**
- A clear set of **partners** or geographical scope
- A clear path to make the difference or to bring an **added value**

Your proposal must fit into the **requirements** of the Action and **fill in a gap** in the needs of the participating organisations and specific sector

Tip 6: Build a good consortium

Be **consistent** – remain relevant to your objective & target group

Be **adaptable** – be ready to renounce a country if you do not secure the right partner

Choose well your partners – with diverse competences

Involve partners in the preparation – avoid surprises after submission

Keep consortium **motivated** – agree a working method for the proposal phase, make a plan for their contributions

Keep **communication** with partners during the whole process

Do not cover the EU map **artificially**.

Verify that all the partners will have the sufficient **operational capacity** (resources) to allocate to the project

Tip 7: Write your proposal – Tips & hints

Be **coherent** with the objectives of the Action and **relevant** to the policy priorities

Be **focused**, think before you write, think of your reader- What is the main message?, Who is your audience? What is their level of knowledge?

Be **accurate**, **clear** and **complete**— give adequate reply to each question

Keep it **simple** - complexity creates fog; simplicity clears it

Be **precise** - develop the idea, provide concrete examples

Do not use very **long sentences** – one main idea per sentence

Beware of **jargon** - Avoid jargon wherever possible, but if you have to use a jargon term then explain it in plain language at first use

Avoid abbreviations and **acronyms** - Spell out abbreviations and acronyms at first use, and avoid them if possible (or if used less than three times in a section)

Do not be **repetitive** – avoid to repeat the same information in different parts of the application

Be aware of **plagiarism** – checked during evaluation
