

## Template for Publication of Selection Results

This template is based on the requirements for *ex post* publicity for the publication of selected results provided by DG BUDG. These requirements emanate from the transparency principle, implying that the Commission should provide information on its intentions, objectives, operations, practices and results.

The publication of results on the Agency's website must take place only after all applicants have been notified. For information about applicant notification, see Article 6.3 of the [Procedures on the Management of Grants](#).

The template includes the minimum level of information required in accordance with Article 38(1) of the Financial Regulation (2018) and common to all programmes. It also offers the possibility to add additional data if so required by the programme committee or by the specificities of the programme.

Applications can follow the same order as presented in the award decision (scores are not published) or follow alphabetical order.

In conformity with the requirements of personal data protection, no names of natural persons should be published, with the exception of *Jean Monnet Activities* owing to the specific nature of that programme. In line with [article 38\(6\) and \(3\)\(d\)](#) of the Financial Regulation, where personal data are published, the information shall be removed two years after the end of the financial year in which the funds were legally committed. The same applies to personal data referring to legal persons whose official name identifies one or more natural persons

The template is only for the publication of the proposals selected for funding. Proposals on reserve lists must not be published.
