

*Priority 5: Green skills in the
Vocational Education and
Training sector*

Mr. Tim SCHREIBER (DG EMPL)

Policy Officer

*Unit B3: Vocational Education and Training,
CEDEFOP*

Policy context

- The **European Green Deal** is Europe's new growth strategy aiming to transform its economy and society and to put them on a more sustainable path.
- A fair and successful green transition requires **investments in skills of people**.
- As stipulated in Action 6 of the **European Skills Agenda**, the Commission will support the acquisition of skills for the green transition, including by supporting the development of a core green skills set for the labour market.
- VET plays a key role to equip learners with these skills, as emphasised in the **VET Recommendation** and the **Osnabrück Declaration**.

The aim of the priority

- To **develop a set of core green skills for the labour market** across different economic sectors to guide training with a view to creating a generation of climate, environment and health conscious professionals and green economic operators; and
- To help **integrate** this set of core green skills **into VET curricula**, as well as in the training of teachers, trainers and other staff undertaking initial and continuing professional development.

Success factors

The extent to which the proposal:

- Develops a **meaningful** set of core green skills; and
- **Showcases how to integrate** this set of core green skills into VET curricula, as well as for the training of teachers, trainers and other staff
