

The CBHE eReport Explanatory Note on The Final Report

A) General framework

Please note that the submission of the Final Report is a contractual obligation (art. I.4.1 of the Grant Agreement); the Agency reserves the right to terminate the Agreement if this contractually required report is not submitted, in accordance with articles II.16.3.1 (c) and II.23.3 of the Grant Agreement.

The report will be evaluated on the basis of the award criteria defined for assessing the grant proposal and will be scored out of a total of a maximum of 100 points.

The table below presents the award criteria and the maximum score for each:

Title of the award criterion	Maximum number of points for each criterion
Relevance of the project	30
Quality of the project's implementation	30
Quality of the project team and the cooperation arrangements	20
Impact and dissemination	20
TOTAL	100

Based on these award criteria, the assessment of the report will aim to reflect the quality of the project's implementation, as well as the consortium's overall performance, taking into account:

- (1) The CBHE requirements as specified in the Erasmus+ Programme Guide
- (2) The relevance of the activities implemented, compared to the "Description of the action" included in Annex I of the Grant Agreement
- (3) The desk monitoring activities conducted by the EACEA since the start of the eligibility period
- (4) The field monitoring visits carried out by or on behalf of the Agency at any of the consortium partners
- (5) The evaluation of the Technical Implementation Report

At the end of the report assessment, the project's performance will be qualified in four different categories, i.e.

Very good (at least 75 pts out of 100): The consortium has achieved its objectives and delivered the expected results in full, as outlined in the Grant agreement. All the results and outputs are of very good quality. No major concerns or

areas of weakness have been identified during the project implementation phase. Impact on partner countries institutions and/or Higher education systems, sustainability and exploitation of results are fully addressed.

Good (between 74 and 60 pts out of 100): To a large extent, the consortium has fulfilled its objectives and delivered (most of) its expected results as outlined in the Grant agreement. Most of the results and outputs are of good quality. Some concerns or areas of weaknesses may have been identified in the project implementation and/or its final results. Impact on partner countries institutions and/or Higher education systems, sustainability and exploitation of results are satisfactorily addressed.

Fair (between 59 and 50 pts): The consortium has fulfilled some of its objectives and delivered some of its expected results outlined in the Grant agreement. The quality of some results and outputs are acceptable. Weaknesses and concerns have been identified in the project's implementation and/or delivering of its final results. Impact on partner countries institutions and/or Higher education systems, sustainability and exploitation of results are not satisfactorily addressed.

Weak (less than 50 pts out of 100): The consortium has not fulfilled its objectives in terms of project implementation and delivery of expected results as outlined in the Grant agreement. The quality of most of the results and outputs is weak. Serious weaknesses and concerns have been identified in the project's implementation and/or delivering of its final results. Impact on partner countries institutions and/or Higher education systems, sustainability and exploitation of results are not addressed.

At "Technical Implementation Report" (midterm report) stage, this rating system was used as a means of providing feedback to the CBHE consortium on its performance. At that stage, the rating had no direct impact on any subsequent pre-financing payment.

At Final Report stage, projects assessed as "very good" (score between 75 and 100) may be flagged as best practice cases. On the contrary, projects falling into the category "weak" (scoring between 0 and 50) will be subject to a reduction of the EU contribution in accordance with the Grant Agreement, Article I.10.6.

The project final grant will be calculated on the basis of the documents specified in annex V and VI of the grant Agreement and in accordance with its Art. II.25 (Determining the final amount of the Grant). The amount of eligible expenditure (/eligible unit costs) will be determined following the assessment of the final financial report and the activities implemented as compared to those foreseen in Annex I of the Grant Agreement.
