  • WP 3 : Updated financing/budget and production schedules
  • Interoperable standard identifier
Common mistakes in submission system

- **Acronym and short summary** (to be encoded when starting the application)
  - Acronym: helpful if it refers to the company/project (i.e., not VG2022 for example)
  - Short summary (abstract): must deal with objectives, activities, type and number of persons benefiting from the project, expected results, type and number of outputs to be produced. **Do not include confidential info.** The synopsis of the project goes in the MEDIA Database
Common mistakes in Part A

- Budget (EU grant requested) incorrectly encoded in Part A
  - Entire production budget instead of EU grant requested
  - Different amounts than in the budget
  - Zero(s) too much or too little (e.g. 10M instead of 1M)
Common mistakes in estimated budget

• Max. grant amount and max. co-financing rate incorrectly encoded in ‘Instructions’ sheets → incorrect calculation of the max. EU contribution in the ‘Proposal Budget’ sheet → incorrect requested EU grant !!!!

• Do not forget to break the type of employees down

Max. grant amount = EUR 150.000 Max.
Co-financing rate = 50%
Common mistakes in estimated budget

- Encode applicants correctly and apply changes!
- Encode work packages correctly and apply changes!

Partnership in Part A

Work packages in Part B

MANDATORY
Common mistakes in estimated budget

- Only encode **eligible costs**! (≠ entire production budget, ≠ costs incurred by others, ≠ costs incurred outside eligibility period)

- When encoding the budget, clarify the units used via the ‘Any comments’
Common mistakes in estimated budget

- Do not forget to fill in the **Requested EU Grant Amount** and make sure that it corresponds to the budget in Part A.

**Amounts in Part A**
Common errors in Part B

- Use the template!!! (goes for all mandatory templates)
- Do NOT put it in another format
- Do NOT add other types of documents such as CVs
- Do NOT leave mandatory sections blank (no info = 0)
- Provide information in the correct section
- Ensure that the info is coherent with the rest of the documents in the application
- Ensure that it is readable
Common errors in info on shareholding

- First encode the applicant **company** (i.e. not natural persons) in the ‘Instructions’ sheet, and – if any – the affiliated entity (must respect eligibility conditions!)

- Encode the entire shareholding of the company and make sure that it is coherent!
  - If the shareholder is a **company** → Legal person
  - If the shareholder is an **individual** → Physical person

- Do not forget to encode the nationality, i.e. either country where the company is registered or nationality of the physical person
Common errors in info on shareholding

- Main activity: **only** to be filled in for legal persons, i.e. companies!
- If the shareholder is a legal person, provide the **full chain** of shareholding as requested, with **all the necessary elements** (nationality!), until the level of physical persons (or stock market) is reached

**MAIN source of requests for additional information**

**Enormous** workload which is easily avoidable
Frequent errors in applications - Other

- Do not forget to **encode the previous work AND the work submitted for funding in the MEDIA Database** – may render the application ineligible

- Do not forget to **upload** the **PDF generated** from the MEDIA Database in the application

- Do not forget to complete **Part C** (and detail the languages used in the application **correctly**)

If not all mandatory documents are there, the application can be considered **inadmissible**
Frequent errors in applications - Other

- Do not add documents that are not requested
- Submit on time!

The better applications are structured, the quicker the evaluation, the quicker the decision!
