13	<p>General description of the technical and organisational security measures</p>

	<p>The European Commission's IT systems used by the Agency abide by the Commission's security guidelines. The Agency must comply with Commission Decision (EU, Euratom) 2017/46 of 10 January 2017 on the security of communication and information systems in the European Commission.</p> <p>1. Organisational measures:</p> <p>A Corporate Local Informatics Security Officer (C-LISO) is in place. Its role includes supervising the Agency compliance with the relevant regulations, and the application of security measures recommend by DIGIT.</p> <p>Organisational measures include appropriate access rights and access control. As a rule within the Agency, access to information systems, the file system or offices are subject to a series of authorisations where the person granting the access is different from the person requesting or authorising the access - except in limited cases of delegation. The HR responsible person in the unit in charge of this action (processing operation of the current record) collects and places the documents on the secured drives of the Commission and all Agency staff are bound by a confidentiality obligation. The need to know principle applies in all cases.</p> <p>The HR responsible person collects and places the documents in the HR designated and restricted drive or in the staff personal files.</p> <p>2. Technical measures:</p> <p>State of the art technical cybersecurity measures are implemented in the corporate systems, according to the security needs. Those measures are in constant evolution.</p>
