DO’s – planning of submission of a proposal

✓ Control the planning of the release and don’t forget the delay of 10 weeks before the first release date

✓ Start drafting the SA strategy itself in relation with the award criteria

✓ Start collecting P&A forecasts and MEDIA grant requests from distributors, letters of intent and national strategies ASAP

✓ Application max 70 pages
DO’s – planning of submission of a proposal

✓ Pre-agree on terms and conditions with third parties in case of selection

✓ Try to submit the application well before the deadline to anticipate any technical issue before the submission stage

✓ Estimate an appropriate coordination cost, taking in account that you can request up to 90% of the total costs of your total budget.
DON’TS

➢ Repetition of information from one award criteria to another one
➢ Copy-paste from one project to another in case of multiple application
➢ Leave some parts of the application incomplete / empty (especially in part B of application, regarding questions that address the award criteria)
➢ Add a line for the coordination costs in the annex :”PDF with film/work information from the Creative Europe MEDIA Database”
➢ Include links to international trailer that requires a password (as it can expire during the process of assessment)
Focus on budget and MEDIA request

Main costs financed in the call:

➢ Salaries Coordination costs from Sales agent - “Personnel costs – without volunteers”)

➢ P&A costs from Sales agent such as marketing material, travel costs for tour talents,… - “Purchase costs – Other goods, works and services”

➢ Third party costs (grants to be provided to distributors) – “Financial support to third parties”

➢ Indirect costs (flat fee of 7% of total direct costs)
Focus on budget and MEDIA request

Use of a “Cascading Grant”:

➢ The Sales agent is the main beneficiary of the Grant Agreement (use of a mono-beneficiary Grant Agreement)

➢ Third parties (=distributors) receive a big part of the total grant from the Sales Agent to support their release costs

➢ Third party grants are costs from the total budget of the Sales agent
Focus on budget and MEDIA request

Funding principle:

✓ SA can receive up to 90% of the total costs, out of which a great part is allocated to the distributors for their P&A’s

✓ The third party grant cannot exceed 70% of the national releases P&A

! Unconfirmed third parties (distributors) can be confirmed at the reporting stage (if any) for territories which did not provide a letter of intent but must be part of the total cost
Focus on new budget and MEDIA request

✓DO NOT INCLUDE THE P&A of distributors to the budget of the proposal in category of costs “D1: Financial support to third parties”: Only the third party grant request is included in the budget.
How to build the budget & calculate the grant?

STEP 1 Calculate request for third parties (distributors):

It corresponds to **max 70% of their P&A** (or maximum thresholds previously defined per territories, whichever is the lowest)

Item D1 in the budget
✓ How to build the budget & calculate the grant?

STEP 2 Calculate the coordination costs (sales agent):

=> It corresponds mostly to Personnel costs and Promotion material of Sales agent

Items A and C.3 in the budget
Focus on budget and MEDIA request

✓ STEP 2 Calculate Sales agent’s coordination costs (staff costs+ SA promotion material)

Tip: based on recent observations, calculate 10-15% of the total amount of distributors grants and depending on the type of project & size of the grouping you will adjust

+ Reminder 7% overheads are calculated on all costs (automatically added in budget form)

⇒ The size of grant allocated to the coordination costs is the total MEDIA grant of the project minus the total grant to be paid to third parties
Focus on sub-contracting costs

✓ …should be maximum 30% of costs

✓ Subcontracting concerns the outsourcing of a part of the project to a party outside the consortium. It is not simply about purchasing goods or services.

✓ We normally expect that the coordinator has sufficient operational capacity to implement the project activities themselves.

✓ Subcontracting should therefore be exceptional. Include only subcontracts that comply with the rules (i.e. best value for money and no conflict of interest; no subcontracting of coordinator tasks).
