FEATURES OF THIS PRIORITY/sub-priorities

1. Targeting barriers and structural obstacles to mobility of apprentices, including, as relevant, for long duration mobility, and testing solutions and opportunities to overcome them;

2. Supporting sending and hosting organisations, in particular those engaged in apprenticeships schemes, in the implementation of learning mobility periods for apprentices;

3. Enhance the outreach to apprentices and employers and the quality of the learning mobility experience.

EXPECTED IMPACT

In terms of impact, projects should foster a strategic approach towards mobility of apprentices and implementing the appropriate measures to overcome the obstacles hindering such learning mobility abroad, within or outside of the Erasmus+ programme. They should also contribute to the 8% mobility target set in the Council recommendation on Vocational Education and Training (VET), building on its objectives and principles, as well as promoting effective forms of cooperation of stakeholders at all levels.
ACTIVITIES (1/2) – at least 5 chosen among:

Support national, regional and/or local authorities, and/or Erasmus+ accredited consortium coordinators, chambers, social partners, sectoral organisations etc. to set up support structures, networks, reference points or mobility coordinators to facilitate all stages of mobility of apprentices.

Involves social partners to support employers, identify sectoral needs and specificities, and develop broad-scale, sector-specific measures to enable the mobility of apprentices.

Find solutions to the barriers and obstacles and design and implement concrete measures to overcome them.

Support partnerships to implement stable and regular mobility schemes as part of curricula.

Collect additional data, research on the key success factors and long-term benefits of mobility of apprentices.
Build capacity for organisations and businesses to undertake apprentices’ mobility and take advantage of the European Alliance for Apprenticeships;

Build up and strengthen apprentices' networks;

Support companies and in-company trainers in receiving apprentices;

Foster bottom-up initiatives aiming at supporting integration (cultural, linguistic) of apprentices in the host country;

Design and implement new bilateral or multilateral mobility opportunities for apprentices.
