Regional partnerships. Key elements

• **Shape? Very open approach:**
  • A single region within a Member State.
  • A territory spanning across Member States (macro-regions, crossborder cooperation...)
  • Network of regions with a shared geographical or economic proximity or relationship
  • At local level (metropolitan areas, grouping of municipalities...)

• **Focus? Bring together a diverse** group of **private and public stakeholders** to take concrete action.

• **Starting point?** Formulate a **declaration** with:
  1. Main challenges
  2. Possible actions (commitments)
  3. Key objectives

• **Activities?** Defined by stakeholders. Support helps identify the most impactful. Inspiration from and to others through mutual learning.

• **More info? Start with:** the **open call for Expression of Interest to establish regional skills partnerships.** Check the **Handbook for new partnerships.**

  - gathering skills intelligence,
  - upskilling of low-skilled people,
  - reskilling people for new tasks in their jobs or reskilling of people from certain sectors with skills transferable to other sectors.

- **Cooperation** between members of the regional partnership.
